EXPERIENCE

Full Stack Frontend Developer Intern — ChiPi Technologies

1 Month Internship | Frontend Development

- Worked as a Full Stack Frontend Developer Intern, building responsive web interfaces using HTML5, CSS3 and JavaScript.
- Developed frontend modules for internal projects including a Visitor Gate Pass Management System and a Blinkit UI clone.
- Collaborated with the development team under mentorship to deliver clean, well-structured and pixel-perfect UI components.

PROJECTS

E-Commerce Platform | Fullstack | HTML, CSS, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB

- Designed and developed a fully functional e-commerce platform with product listing, shopping cart and order management modules.
- Integrated secure user authentication using JWT and session handling to protect user accounts and order data.
- Built RESTful APIs with Node.js and Express.js and modeled application data using MongoDB for scalable storage.

Visitor Gate Pass Management System | Frontend | HTML, CSS, JavaScript

- Built a multi-page digital visitor gate pass system (register, login, dashboard) to capture visitor details and generate a printable entry pass.
- Implemented dynamic form validation and unique Gate Pass ID generation using JavaScript and localStorage for client-side data persistence.
